

MORNING APPEAL.

WEDNESDAY, SEPTEMBER 18, 1878

RENO was favored with a magnificent rain shower on Monday morning.

CHICAGO stone-cutters have struck for an advance of wages of fifty cents a day.

O'BRIEN, a notorious thief and confidence man, was shot and killed by a policeman in Chicago on Sunday.

DENTS KEARNEY has been suggested as minister to China, in the event that Ben Butler becomes President.

PIOCHE is 5778.60 feet above the level of the sea, according to Mr. Fitzgerald, Signal Service Agent at that place.

Constantinople bakers have discontinued the sale of bread, owing to the high price of wheat and the depreciation of currency.

THE entire collections in aid of the yellow fever sufferers at Pioche and vicinity, up to Saturday, 14th instant, amounted to \$305.

LOMER GRIFIN, supposed to be the oldest man in the United States, died at his residence in Lodi, Ohio, Monday night. He was 104 years old.

THE Ancient order of Danicities is the name of a secret organization in England, the chief object is total abstinence from fish, fowl, alcohol and tobacco.

H. J. PALMER, a bookkeeper of the Sacramento Savings Bank, has been arrested on three charges of embezzlement. He is charged with abstracting over \$11,000 from the bank.

THE Finance Committee of the San Francisco Board of Supervisors will try to trace where the protested tax money went after the late Alexander Austin took it from the Bank of California.

CHARLES LEWIS, a barkeeper in Ellidge & Crows' saloon, Reno, robbed his employers of \$248 on Sunday night last, and left for Sierra Valley. As he only had about fifteen miles start, he will probably be caught.

It is stated that Tom Thumb's father is a pauper in the Chicago poorhouse. Tom quarrelled with him when a boy, and has never visited him since. He has fourteen sons and daughters in all, several of whom are wealthy.

THE Pioche Record says: By a letter from Theo. A. Hale, from Chicago, we learn that he participated in the grand firemen's parade that took place in that city a short time since, and was the only representative of Nevada in the parade. He represented Lightner Hook and Ladder Company of Pioche.

MR. DUCK'S CONDITION.—From the Reno Journal of yesterday we learn that there is a little chance for Mr. Duck to live. His kidneys show renewed life; but the great danger now is from an effusion of water on the brain, of which there is a little now. Should it continue to accumulate, nothing can save him. For a time yesterday Mr. Duck was conscious and recognized one or two friends, but he has been out of his head nearly all the time since Saturday night.

FRENCH, the Government Auditor of Pacific Railroad accounts, has been informed that the Union Pacific is making up its accounts, and that they will be speedily forwarded to Washington for approval, as required by Act of Congress. French says it is probable the Central Pacific also will soon fall into the ranks. It is not thought the companies will go to the expense of a suit in the Supreme Court to try to prove that the law compelling them to submit their accounts for audit to the Government is unconstitutional.

MURDEROUS ASSAULT.—From the Silver State of Winnemucca, of the 16th, we learn that last Saturday Chesley Lannance, of Paradise Valley, was attacked by a man named D. Bowman, who had been working on his ranch, and struck on the head with a gun. Dr. Bogman, who happened to be in the valley on professional business, was called to dress his wounds, and expressed the belief that his skull was fractured. The would be murderer escaped from the valley, and is probably yet at large. The following is said to be a tolerably accurate description of him: Height, 5 feet 8 inches; complexion dark; black eyes, black hair, with low forehead, and black chin whiskers; age about 40 years.

A RENO Gazette reporter has been visiting Wadsworth, and speaks as follows of the railroad town: Wadsworth has a population of about 500, has a neat school house which is also used for a church when a clergyman happens along, three hotels, five groceries and other business houses. It is the terminus of the Humboldt and Truckee division of the C. P. R. R. and therefore is well patronized by railroad men. The largest machine shop east of Sacramento is located there. A good deal of teaming is done. About thirty teams leave every twenty-five days, with from 12 to 22 animals to the team, and each carries from 35,000 to 40,000 pounds of freight. The teams go to Benton, Downsville, Ellsworth, Columbus, Lone, Grantville, Silver Peak, Gold Mountains, Bishop Creek and other points. Wadsworth is well supplied with saloons, of course. It is a quiet, well conducted little town, and has the merit of being Republican.

Portland, England, Sept. 17.—Condon and Melody, the Fenians, were discharged from the Portland prison this morning, and left immediately for Southampton, in charge of a Deputy Governor and two wardens of the prison, who will attend them until they are embarked on the steamer Moselle, which sails to-day from Southampton to New York.

KANSAS CITY, Sept. 17.—The Eighth Annual Kansas City Exposition opened to-day. Lulu, Rarus, Smuggler and a number of noted race horses are stabled on the Exposition grounds. This afternoon Lulu will trot for \$1,000 to beat the best time on record on a half mile track.

SAN FRANCISCO, Sept. 17.—The steamer Ancon, just in from Portland, reports running down the schooner Phil Sheridan on the 15th instant, in a thick fog; passengers and crew were saved.

NEW YORK, Sept. 17.—The Tribune says: New York has raised \$252,000 for the yellow fever sufferers. The total number of deaths is 5,612; total cash sent to New Orleans, \$6,700; to Vicksburg, \$3,500; to Memphis, \$6,000.

CINCINNATI, Sept. 17.—A deck hand on the steamer Gaff, from New Orleans, died in the hospital here last night of yellow fever.

HONEY.—The Anaheim Gazette thus speaks of the honey interests in that part of California: Some idea of the immense amount of honey raised in this vicinity may be gleaned from the fact that C. Willie, one of our local coopers, has made 1200 honey barrels this season, each barrel holding from 20 to 25 gallons, and he is still at work filling orders for more. It must be remembered, also, that there is a vast quantity of honey shipped from here in five-gallon cans, but we are glad to state that this practice is gradually becoming obsolete. The honey shipped in barrels is justly looked upon with more favor. It is not very long ago since the Beekeepers' Association recommended shippers of honey to use the barrels manufactured by Anaheim coopers.

THE Black Hills Times tells the following story of an unfortunate Postmaster's degradation: The people of Crook City believe he has gone for good, and petitions are being circulated by a number of persons for the appointment of a postmaster. At the last game of poker he played there he made a grab for the pot, said to represent \$125, and claimed it as his money, accusing the other players of cheating. He made good his grab by refusing to give it up at the point of a revolver, daring the holder of the weapon to shoot him. It was a clear case of desperation, as he has invariably lost, and probably this was his only chance to secure sufficient money to leave the country with, and to get that he was ready to risk his life, as he is known to have grown reckless of late.

RATTLESNAKE JACK.—The Winnemucca Silver State of Monday says: Charles Carson, alias "Lone Rattlesnake Jack of the Black Hills," arrested in Sacramento, California, on a charge of horse stealing at French's ranch, in Grant County, Oregon, was brought here yesterday by Sheriff Kyle and lodged in jail. The outlandish appearance of the prisoner created a sensation among the Plutes upon his appearance at the depot. He is attired in buckskin, and his broad brimmed hat is covered with feathers, furs and snakes' rattles. He claims to have been a scout in nearly every Indian campaign since 1865, and to understand many Indian dialects, but a year ago last winter he was known in southwestern Kansas as a "bilk."

A clergyman in Australia, being disgusted with the number of three-penny pieces he found in the plate every Sunday, studied the subject, and instead of paying the small silver coins into the bank, locked them up in his desk. The result was marvelous. After some £90 of small coin had been withdrawn from circulation, sixpences and shillings took their place in the plate, and latest accounts speak encouragingly of the increased amount derived from the weekly contributions.

V. S. WILSON, Assisting Teller of the office of the Redemption Division of the Treasury Department, was arrested in Washington on Monday afternoon as a defaulter. Wilson was recommended last week for dismissal by the chief of his division, principally on the ground of general inefficiency, and an examination of his books to-day showed that on the 9th instant he abstracted \$1,000 from a package consigned to the Treasury Department.

GLANDERS.—A disease, thought by some to be the glanders, has made its appearance among the horses on Truckee Meadows. Breed & Crosby of Virginia have lost several animals which they had sent for pasture to Glendale. It is supposed it was brought to this coast by horses shipped from the East by rail.

THE Central Pacific Railroad is building a boat, which will have six boilers, and her engines will have two cylinders 50 inches in diameter and 12 feet long, to transfer trains from Benicia to Martinez.

On the 29th of last month Rhode Island celebrated the one hundredth anniversary of that battle which Lafayette pronounced "the best fought action of the war."

CYNTHIA HODGSON, the San Francisco abortionist, has been found guilty of murder in the second degree.

SCARLET fever is spreading in Reno.
